1250l Pump & Tank Unit

Designed for situations where on-site pressure is too low, or where Water Regulations demand Category 5 water protection. Pre-assembled pressurisation unit enabling easy installation and minimum on site work. The unit is pre-wired and tested at manufacture ensuring on site commissioning time is greatly reduced.

	DAB 900X (Fixed Speed)	DAB 55X (Variable Speed)
Head	**Flow (m^3/hr)**	
20m	4.2	5.75
30m	3.0	5.1
40m	1.4	4.5
50m	-	3.75

- Automatic submersible pump
- Dry run protection
- Compact footprint
- 1250 litre capacity water storage tank
- Provides up to 4.8 bar pressure
- Water Regulations compliant for Cat 5 water usage
- Pressurised output with fully automatic operation
- Dimensions: 1200mm diameter x 1200mm high
